

Problems getting stock levels?
Visit www.support.wetock.co for guidance

What is an ibank?

Your ibank device records real-time wetstock data and sends it automatically to the Dover Fueling Solutions UK centre for analysis.

What does my ibank look like?

Your ibank is a small black box, with a white sticker on the front, which includes a diagram of the faceplate and information on how to restart the device, should it be required.

Where can I find my ibank?

Your ibank is located:

Our experienced customer support team can offer assistance with a variety of problems on site. If you are in need of advice relating to your wetstock reconciliation, your analyst is available on **+44 (0) 1695 52175**.
